

I'M HERE 4 U INC. (DBA) TEENTREPRENEUR.BIZ FOUNDER PROFILE

Kaye-Cee Austin, a 14-year Retired Army Veteran, is married to U.S. Army Chief Warrant Officer Two James E. Lindly and they have one daughter, Cadence Kay Lindly. The couple met in 2001 on a military deployment overseas to Kosovo and remained friends until they wed in 2006. Kaye-Cee also is the 4th child of 14 children and two awesome parents.

Kaye-Cee founded the Social Impact Investing Company, TeenTreprenuer.Biz in 2014 based on her absolute love for empowering children. The company is also founded on the belief that in our forever changing world, young people develop innovative and unique concepts on a daily basis that challenge the adult world's understanding of how problems can be solved and needs can be met. But due to the fact that it is an "adult's" world, so many young people—without all of the communication skills and confidence of their older counterparts—find it difficult to access and compete in a business climate that does not see them as players.

" I was thoroughly inspired to start [TeenTreprenuer.Biz](https://teentreprenuer.biz) and our TeenTrep Academy due to the fact that entrepreneurship is not taught in most schools. Many preteens and teens would like to start their own business of one kind or another, but they don't know how to go about doing so. That is where we come in. " –Kaye-Cee Austin

Within the startup, James serves as the company Chief Financial Officer (CFO) and their three-year-old daughter Cadence is the Chief Executive Officer (CEO), the youngest CEO of a tech company. The company assists 7-19 years olds and their families in starting and growing their own business ventures through education, coaching, mentorship, guidance, angel and venture capital investments. The Lindly family believes in leading by example by taking this journey as not only a family but the first military family to take on such an endeavor. Kaye-Cee is has recently fulfilled her childhood dream of becoming a Venture Capitalist and has started her own firm, "Bet On The Jockey Ventures", with a focus on technology and arts and entertainment ventures. She is also a member of the Los Angeles Venture Association.
